- **No FBI at Pacifica Radio**

Ken Ford, vice-chair of the Pacifica Radio national board, is engaged in the destruction of the oldest and largest listener-supported, corporate-free national broadcast network in the country. He has overstayed his legal term on the Pacifica board and is named in 3 separate lawsuits, including one backed by the Calif. Atty Gen. During his tenure, he has overseen union-busting, lockouts, censorship, and race-baiting. *When listeners complain, he turns them in to the FBI!!*

The Nat'l Assoc. of Home Builders (NAHB) is one of the largest political action/lobbying organizations in the country. They:

- Defeat environmental regulations like the Endangered Species and Clean Water Acts.
- Crush popular initiatives against unrestrained sprawl, as in Arizona and Colorado.
- Oppose enforcement of the Americans with Disabilities Act.
